

# EDUCATION CASE STUDY

# THE CO-OPERATIVE

# ACADEMY, MANCHESTER.

## Project Summary

We decorated all the internal surfaces in this extension to the original Coop Academy. The newly increased teaching capacity consisted of maths and English classrooms, a fully functioning theatre including orchestra pit, 2 new drama rooms with toilets and sports changing facilities.

Considering the size of the project, the work was completed to a very high standard in challenging conditions and in a relatively short period of time.

The client and management team at Morgan Sindall were extremely happy with the work we carried out which was shown when our supervisor running the job was awarded the best supervisor on site award.

This project was completed using Johnstones Trade paint products.
