

# EDUCATION CASE STUDY

# WALLYFORD PRIMARY SCHOOL.

## Project Summary

For this brand-new modern school building we were required to paint all internal areas and also completed a couple of small areas on the externals.

The building had an Atrium which ran the full length of the main wing, so this gave us the challenge of matching up various colours and finishes.

Working through the winter months brought logistical issues and meant delays for all trades. As a result of this the project had to be completed in a very tight time frame as the children had to be able to continue their education in this new building as programmed.

This Project was a very challenging but of course a rewarding one. The building is now a school which aims to do everything possible to provide local children with the best opportunities for learning, health & development by working with its community.

Seeing the client and their pupils in their new surroundings gave the Story team a huge sense of pride in this fantastic project

## Awarded

Shortlisted as a finalist in the Education category in the Johnstones Painter of the year awards 2020.

Shortlisted for a judges visit in the Painting and Decorating Associations Premier Trophy Awards 2020 but this result has been put on hold.

## Key Facts
