

## EDUCATION CASE STUDY

# ENERGY COAST UTC, WORKINGTON.

### Project Summary

The Story team were tasked with the internal decoration of this project

Beginning with painting all internal steelwork to the chosen colour scheme and concrete soffits prior to the installation of lighting. Walls were then coated with durable matt emulsion and woodwork was treated with water-based products.

This was a demanding job to carry out & complete within the timescale and included weekend working to achieve deadlines as well as working with other trades to ensure the smooth running of the project towards completion.

Mobile MEWPS and high level scaffolding were used to reach the higher areas in the atrium and floors were painted with 2-pack epoxy floor paint.
